

Nomination for Arch Campbell Award (2018)

Name of Nominee _____
Organisation _____
Position Held _____

Nomination Category

Select *either*

- A notable published paper, presentation or written report pertaining to catchment hydrology, river and stream hydraulics, sediment transport or catchment or river management; or
- A notable contribution over a number of years to the advancement of knowledge or practice in the fields of catchment hydrology, catchment management or river engineering.

Supporting Statement

Please provide a written statement supporting the nomination in either of the above categories. Your supporting statement needs to provide the adjudication committee with sufficient information on which to base a full assessment of the nominee. The statement may include

- ≈ A brief biographical summary of the candidate
- ≈ Evidence that satisfies the criteria for the award and supports the worthiness of the candidate to receive the award.

Nominators

Nominations are to be made by a current Rivers Group member, and supported by a secondary nominator.
